

HOME

Home page should be an option “**Virtual Online Event**”

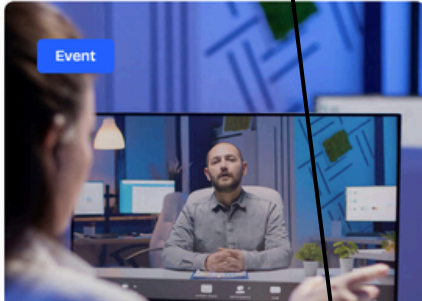

On the homepage, please remove the word count, the countdown, and the statement that says "Virtual Innovation Summit 2026 + everything." Only the following words should be displayed:

Headline: Elevating Meetings, Incentives, Conferences & Exhibitions

Subheading: Delivering exceptional event solutions that inspire audiences, strengthen relationships, and create measurable business impact.

Why Attend the Virtual Innovation Summit

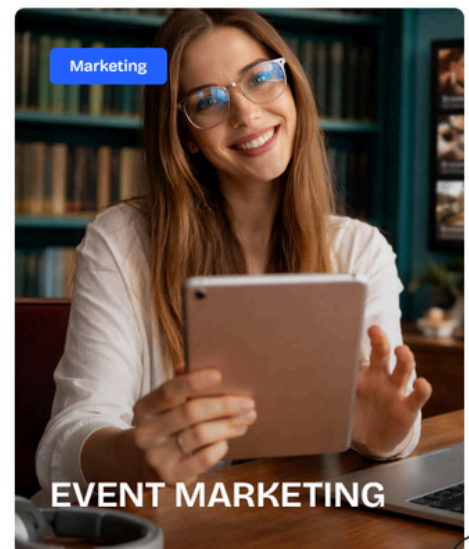

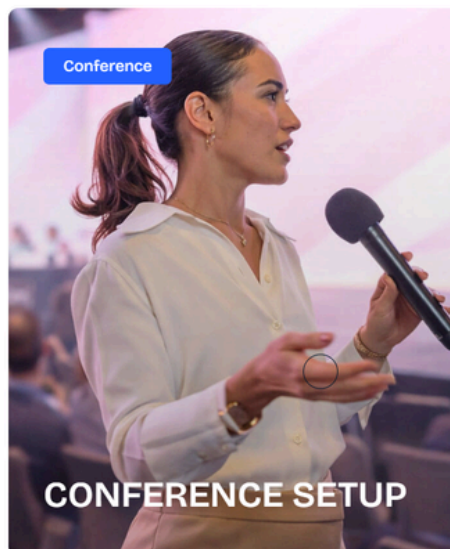

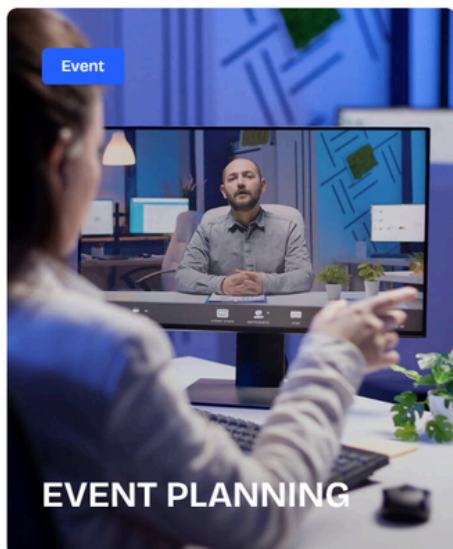

Experience powerful sessions, global networking, and on-demand access — all from your screen.

One Partner. Nine Destinations. Unlimited MICE Possibilities.

Subheading:

From Meetings, Incentives, Conferences, and Exhibitions (MICE) to corporate gatherings and destination experiences, we provide end-to-end event management across Namibia, Botswana, South Africa, Zambia, Zimbabwe, Kenya, Tanzania, Uganda, and Rwanda. With regional expertise and trusted partnerships, we help organisations create impactful and memorable business events throughout Africa.

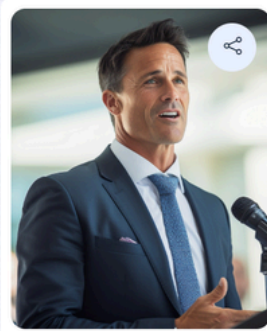

All services should be displayed in this section according to the services listed under the service tabs. The headings and all other details should remain the same. Only change the heading to the one I will indicate under each service (referring to the words highlighted in blue). I will also provide the service names as examples, such as EVENT PLANNING, and so on.

Featured Virtual Speakers and Global Industry Experts

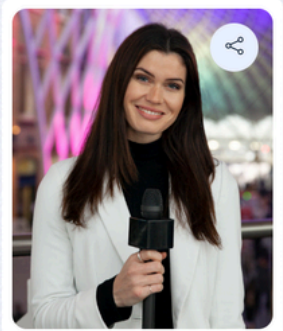

Meet the innovators and thought leaders joining us live from around the world.

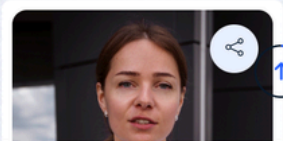

Emma Richardson

With this section, we can keep it as it is. I aim to use it to sell tickets for specific events. For example, if there is a conference taking place in Windhoek and attendees need to purchase tickets, we can list it here.

All I ask is: can we add a section at the top (above Early Bird, Standard, or VIP) where we can add the name of the conference or event?

Please look into this.
